Lab 4

Name- Adarsh Nandanwar
BITS ID- 2018A7PS0396G

Usage instructions

1. Compile the c files

```
$ gcc server.c -o server
$ gcc client.c -o client
```

2. Execute the executables

Terminal 1

```
$ ./server
```

Terminal 2

```
$ ./client
```

3. Write the messages once both processes are running.

4. Type exit on either the server or the client terminal to close the connecion and end the process.
